REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In a pressure-activated valve having a flexible annular portion extending radially inward, the flexible portion is configured to flex downward when subjected to pressure from the container fluid material, where rotating the cap, it causes a cam pin to disengage from a locking pin to enable the flexible annular portion to flex downward when subjected to pressure, the cam pin extending upward from the flexible annular portion to engage the locking pin to prevent the flexible annular portion from flexing downward was found in all of the claims but not found or taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
